

Your LEAD hand is the one you write with. Your LEAD hand crosses over your other hand to play the hi-hat.

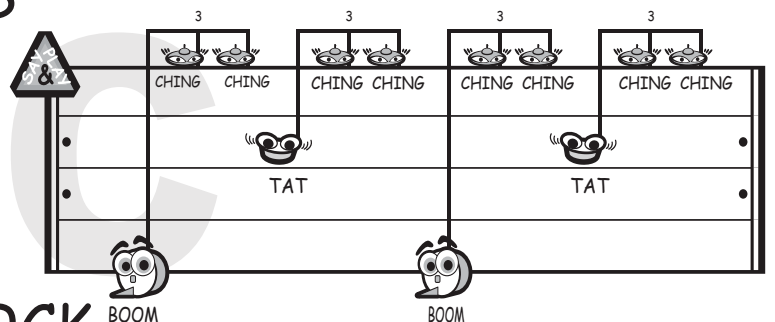

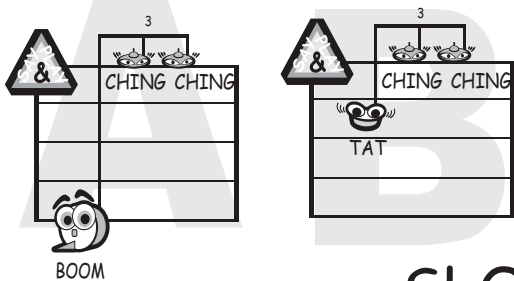

Without a drum set you can still play by using items found in your kitchen such as plastic bowls, pots and pans. You can use a standard practice pad, using the edge for one sound and the middle for the other sound and your foot on the floor for the bass drum. You can purchase a drum pad kit that has 3 or 4 pads from your local music store. Also, you can pretend or act like you are playing on AIR DRUMS and say what you are playing with DRUMPHONIC sounds to hear what you are playing. If you can say a drum pattern you can play a drum pattern.

Say and Play part **A** several times then part **B** several times until you feel comfortable then play **C**.
